Wolfe's **TEXABERTA** *World's Most Perfect Peach*

Freestone that ripens July 10. Combine the best qualities of all peach varieties...add a few and you have Texaberta. A peach that is a peach of a peach. FROST RESISTANT EIGHTEEN CONSECUTIVE CROPS—No Failures. Tiny seed; dark red flesh around the seed, fading in streaks into the deep yellow body. Tough skin with little fuzz. The sweet, juicy flesh has a smooth texture that is tender and firm. It ripens evenly and hangs fast to the tree. DISEASE RESISTANT! Remarkably Free from Brown Rot that ruins some varieties. Drove of people came to the Nursery to see TEXABERTA in production...and could hardly believe such a grand peach existed. It grows well with mild winters where the Elberta is a failure.

STEPHENVILLE, TEXAS

ROSS R. WOLFE

President, Wolfe's Nursery

Member: Texas Association of Nursermen and American Association of Nursermen

Dear Customer:

We believe in America and all for which it stands.

We believe that crops of fruit, vegetables and flowers bring the health, happiness and sustenance that come from working in the earth, and in the staunch morale which these things inculcate in the heart.

We believe in fighting where and when we have to for peace.

Every tree, every plant, every seed adds to the life and resources of man. Let's raise fruit. Let's garden. Let's fight for peace in it.

Sincerely your,

Ross R. Wolfe.

Wolfe's Trees Are "Quicker to Bear"

TIME TO PLANT: Plant trees from November 15 to April 15. Send personal check, post office money order, cashier's check or express money order.

COMBINATION FRUIT TREES

ORDER OFFER NO. 1

Wolfe's FAMOUS FRANK

Forty fruit growers affirm "The Frank Peach has not missed a crop in forty years at Mexia, Texas, where it was originated." W. P. Burg of Stonewall, Texas, writes, "I sold \$500.00 worth of Frank peaches from one hundred 3-year-old trees this year." Paul H. Shepard, Director of Mt. Grove, Missouri, Experiment Station, put Frank peach in six best peaches for that section out of one hundred and fifty varieties.

Famous Frank Peach

The Frank is a yellow cling with red cheek, sweet enough to be **CANNED WITHOUT SUGAR**. It is the size of Elberta, with much better flavor. The tree grows faster than Elberta and produces twice as many peaches. It blooms for three weeks and if the buds are killed at one time it has more coming on. This is what makes it FROST-RESISTANT.

FRANK. Holds the **WORLD'S PRODUCTION RECORD**. Forty years at Mexia, Texas, without missing a crop. A new production record of 10 bushels from a 3-year-old tree was set in the orchard of Reeve Odiorne, Stephenville, Texas. Ripens August 10 when good peaches are in demand. Several growers are making from \$300.00 to \$500.00 per acre from heavy bearing Frank trees. It is a beauty, with sweet, acid-free, juicy flesh . . . so yellow and OH! so good. (It has small, sound seed and its firm flesh makes it an excellent shipper. W. H. Smith of DeLeon (Texas' peach wizard), says, "MY FRANK trees prove that Mr. Wolfe was right when he said **MONEY DOES GROW ON TREES**." Farm & Ranch said, "The most outstanding peach produced in the Southwest." For the genuine FRANK, get it at Wolfe's.

FRANKIE. Freestone, ripens August 15. A large, beautiful peach with all the qualities of the Frank. Sold only by Wolfe. Frankie is a heavy producer . . . even during years of late frost . . . disease resistant, two of the many qualities that put it in the Money Class. It has a color that sells; rich yellow with bright red sun-kissed cheeks. R. B. Alexander, oldest and most successful orchardist in the South, told the Number One Peach Association of Texas, in a meeting at Wolfe Nursery, "If I were a young man, I would plant 1,000 acres of Frankie." Truckers say, "Frankie is one of our best shippers. Watch it make peach history."

SPECIAL OFFER NO. 2

THREE SPECIAL PEACHES

WOLFE'S NEW ELBERTA. Freestone. Ripe June 20. Just as the name implies, this is a new Elberta that beats all other peaches of its class to the market. Commercial growers have welcomed this variety as a precious gift to early marketing. Take our word for it and plant a peach that will make money.

WOLFE INDIAN CHIEF. Cling. Ripe July 20. \$100.00 reward for better INDIAN peach than ours. I have three of these peaches in my office that completely fill a HALF-GALLON jar—the finest pickling peach in the land. Twenty-five-year-old trees here in Stephenville are still healthy and bearing the finest, large, red-fleshed, red-skinned peaches I have ever seen. A grand peach for home or market.

PRESIDENT ROOSEVELT. \$25.00 in cash was paid for the name of this grand new Peach last season. Freestone, ripens June 20. It is similar to Texaberta in size, color, size of seed, flavor and shipping quality. This big, yellow, freestone ripens just after Early Wheeler and seems to be extra frost-resistant. The big, delicious peaches hang on the tree remarkably well after they are ripe. We recommend it highly and without reservation.

Wolfe's GIANT HALE

STANDARD PEACHES THAT PAY

WOLFE'S GIANT HALE. Freestone, ripe July 15. Our Hale is a Grand Champion at all the shows. Thinned properly, the big ones often weigh **ONE POUND** and measure **ONE FOOT** around. Our huge, dark red Hale commands instant attention at all markets and sells like hot-cakes at two and three dollars per bushel.

Wolfe's Giant Hale

GOLDEN JUBILEE. A high quality, early, freestone peach, a typical Elberta type fruit, highly colored, ripening about four weeks before the regular Elberta, the buds will resist winter freezes well, and open after Elberta, which will insure a regular crop.

MAYFLOWER. Semi-cling, ripens May 25. Earliest peach on market and valuable for home or commercial purposes. It is medium size, creamy-white skin, mottled with dark red; juicy and very delicious.

EARLY WHEELER. Cling, ripe June 5. Peach we sell for Early Wheeler is sold by Stark for Red Bird Cling. It is better colored and has the same size and shipping qualities.

BELLE OF GEORGIA. The best white peach for home and commercial planting. Ripens a week before Elberta. This is the famous Belle of Georgia; freestone; of splendid quality; very large; showy.

ELBERTA. Freestone, ripe July 10. This yellow peach needs no description. I have an improved strain of the original variety that bears heavier and more regular than the old variety. It is third to **TEXABERTA** and **FRANK** on the market.

HALEHAVEN. Freestone, ripens June 25. Cross between South Haven and J. H. Hale; large, beautifully colored, yellow-fleshed peach. Splendid Shipper. Heavy producer and brings top prices.

PEACH VARIETIES FOR BLACK LAND

Mayflower, Early Rose, Arp Beauty, Mamie Ross, Belle of Georgia, Leona; also the following special varieties especially priced: Texa-bertha and Indian.

6 Special New Fruits

Wolfe's Allred Plum

WOLFE'S ALLRED PLUM. Beautiful to see, delicious to EAT and easy to admire. Allred is another of Wolfe's new varieties resulting from a never-ending search for new and finer fruits. Allred attracts the eye like a passing parade. It is medium in size, highly ornamental and produces regular crops of high quality fruit. The leaf is red. The stem and branches are red. The fruit is red outside and inside and the seed is red. It is ALLRED. Many of the trees are used in landscapes for its beauty.

WOLFE'S ALLRED INDIAN PEACH. This is an old Arkansas seedling Indian Peach with red meat and red leaves. A new and real sensation. Price: 2 to 3 ft., 50 cents each, 5 trees for \$2.00, postpaid.

GERMAN PRUNE. Cross between plum and prune. Blue-black color with reddish meat. Small seed. Fruit delicious and good for jellies, jams or preserves. Ripens July 10 to 20.

RED NECTARINE. The Nectarine is a bud sport of the peach, and is not a cross. The Nectarine tree is identical with the peach tree in its climatic and cultural requirements. Its smooth fuzzless skin, however, and distinctive and delicious flavor make it popular wherever it is known. The fruit is medium sized, red in color, semi-cling, of extra good flavor. Tree a medium grower and good bearer, earliest of the shipping nectarines. Carries well to market. Ripe in late June.

SANTA ROSA PLUM. Largest and most beautiful plum. Leading commercial plum in California and well adapted to the South. Purplish red in and outside and most delicious.

WOLFE'S MUNSON PLUM. When I tasted the Munson Plum, I said it is as sweet as honey and as yellow as gold. It gets ripe June 1 when the berries are at their best and should be in every planting. This is our greatest plum.

ORDER SPECIAL NEW FRUIT COLLECTION NO. 6

EARLY BEARING PLUM TREES

Every home with planting space should grow their own Plums for fresh eating, jellies, jams, plum butter and canning.

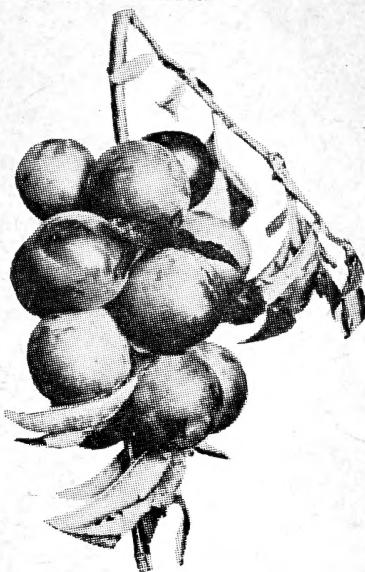

Wolfe Plums are the cream of selected varieties.

BRUCE. This is one of the best plums that grow in the South. The tree is very healthy, early to bear and produces load of red plums nearly as large as hen eggs. It ripens in early June, and growers who shipped it in carloads from Texas to New York report it retailed for \$8.00 per bushel.

AMERICA. Ripens June 20. Thrifty, symmetrical, spreading tree with medium to large fruit that is a bright golden color with pink cheeks. Firm flesh, clingstone.

BURBANK. Ripe June 25. Large, clear, purplish-red, flesh deep yellow, sweet flavor. Very prolific. A great plum produced and named for a great man.

SHIRO. Ripe in July. One of the most desirable plums over a wide area. Large to very large fruit, oblong, clear yellow with small seed; firm, fine texture, unsurpassed quality for eating and cooking purposes.

Plums—Bruce

METHLEY. Ripe May 25. Red fleshed, red skin and is more than three inches in circumference. Methley was introduced from South Africa and is growing in popularity as a good market variety.

KELSEY. Ripe in late June. Good to eat, good to can.

GOLD. Ripe July 1. Similar to America, but larger and sweeter.

SIX WEEKS. Ripe May 20. The earliest good plum on the market. Large, rich red and excellent flavor.

WICKSON. The large, heart-shaped freestone plum that has such a small seed.

PLUM CHERRIES FOR HEAVY CROPS

HANSKA. Ripe in July. Fruit is red with an apricot flavor and almost a freestone. Frequently double and will hang on the tree long after ripe.

COMPASS. Vigorous grower, hardy, prolific and bears extremely young. Fruit rather small, dark red and ripens in June.

SAPA. Ripe last of June and a tremendous producer. Dwarfish, thrifty and often sets fruit at one year of age. Fruit medium in size, dark, with greenish splotches, flesh rich dark purple-red, rich flavor with small seed. The best jelly plum on the market.

OPATA. Ripe the last of June. Also an extra heavy producer. Tree is very beautiful when in bloom and very fragrant. Medium size fruit, purplish-red, splashed with green, flesh light green and fine flavored... completely covers the long limbs. Clingstone.

Wolfe's HOLLAND APPLE A New Money Maker

SPECIAL APPLES

**Wolfe's HOLLAND APPLE, a New
Money Maker
Sold Only by Wolfe**

This Horticultural Wonder that originated at Weatherford, Texas, was called to my attention by Mr. R. B. Alexander, the largest and most successful fruit grower in Texas. Holland has been a consistent and heavy producer for 30 years. Its outstanding commercial advantages are: 1. The fruit is firm, good packer, shipper and one of the most delicious Apples grown. 2. It ripens as early as our FRANK Peach and is on the market before outside Apples are shipped in. 3. It hangs on the tree exceedingly well, giving the grower a longer selling season.

TRANSCENDENT CRAB APPLE: (Siberian.) Ripens in July. An attractive yellow color, splashed and striped with red; bears very young. Buds and blossoms exquisitely beautiful. Price same as Holland.

STANDARD APPLES

DELICIOUS. AGAIN this year I raised Big Red Delicious Apples that weighed a pound. Wonderful flavor and beautiful shape makes them market specials. Every home should plant a few apple trees. Ripe in September and October.

JONATHAN. The Jonathan Apple is not so large, but it makes up for this in color, quality and heavy bearing. It ripens in the South about the middle of September.

GOLDEN DELICIOUS. This Apple is just like Delicious, except it is a golden yellow; good keeper and a real money maker. Ripe the same time as DELICIOUS.

YELLOW TRANSPARENT. This mellow, yellow apple really gets ripe about June 10. The trees are very prolific and the apple is good for cooking and for early market.

DOUBLE RED DELICIOUS. The Double Red Delicious is just like Delicious, except it has more red. \$5,000.00 was paid for the original limb. I have the genuine stock. Several of our customers report they are making \$15.00 to \$25.00 per tree....Proving that "MONEY DOES GROW ON TREES."

KING DAVID. Mr. J. Frank Browning of Baird, Texas, the largest apple grower in this section, places King David and Holland at the top of his list for money makers. King David gets ripe in August and sells like hot cakes. King David and Golden Delicious are good pollinators for Delicious. An orchard of Holland and King David properly cared for will net \$100.00 to \$300.00 per acre.

DELICIOUS FIGS THIS YEAR FROM WOLFE'S FIG TREES

WOLFE'S EVERBEARING FIG (RAMSEY). Ripens its fruit from July until frost and each tree will produce fruit first year. Bears on its new growth. Light straw to brown in color, medium size and very sweet. Does not crack easily. La Union Orchard of Grand Prairie made \$1,600.00 from four acres of this fig in one year. Wolfe's Everbearing Fig (Ramsey) is extra good for preserves or eating fresh.

MAGNOLIA. It is not necessary to plant two varieties of figs for good results. The Magnolia produces large brownish straw-colored fruit and will bear the first year after planting. We offer only the best varieties in all fruits.

Wolfe's DEW-BLACK Early Wonder

Berries Will Produce First and Second Year After Planting. No Fruit is So Sure to Bear or More Valuable to Eat and Cook

Cross between Dewberry and Blackberry. Tips root the first year and then stand and handle like Blackberry. Small seeds, self fertile, large as Austin Dewberry, sweet, juicy flavor and ripens from May 20 to July 1.

DROUTH - RESISTANT and **FROST-RESISTANT**. Produces a crop every year... 1,000 to 2,000 gallons per acre. We shipped this berry to 44 states last season.

PRICES: 10 for \$0.95; 50 for \$3.75; 100 for \$5.95; 1,000 for \$40.00, Prepaid.

Wolfe's Dew-Black Berry

PARKER (Thornless) YOUNGBERRY. Cross between Dewberry and Loganberry.

PRICES: 10 for \$0.95; 50 for \$3.95; 100 for \$6.75; 1,000 for \$45.00, Prepaid.

Giant BOYSEN BERRY A Sensation

This amazing new berry is huge... about one by two inches in size and has an amazingly rich flavor that makes everyone want more. Our pickers in the patch eat and pick. As delicious as they look. Plant this new berry for profits. Mr. Knott of California made 11,500 pounds per acre and realized \$1,760.00. Boysenberry is **FROST-RESISTANT** and **DISEASE-RESISTANT**. Try our Boysenberry.

PRICES: 10 for \$1.00; 50 for \$4.00; 100 for \$6.95; 1,000 for \$46.00, Prepaid.

AUSTIN DEWBERRY. First berry to ripen. Hardy and prolific. Delicious and easy to grow. Large.

PRICES: 10 for \$0.60; 50 for \$2.50; 100 for \$3.50; 1,000 for \$25.00, Prepaid.

Plant Blackberry 4 by 10 feet, Austin Dewberry 3 by 6 feet, Youngberry 5 by 10 feet, Boysenberry 5 by 10 feet.

STRAWBERRIES

Strawberries Will Make You Money

JOIN WOLFE'S MONEY MAKERS

There is nothing like having strawberries growing about the home for pleasure and PROFIT. Besides home use, the sale of strawberries themselves is enormous. On one acre an Arkansas man made \$422.80 net. One farmer made more than \$5,000 net on 17 acres.

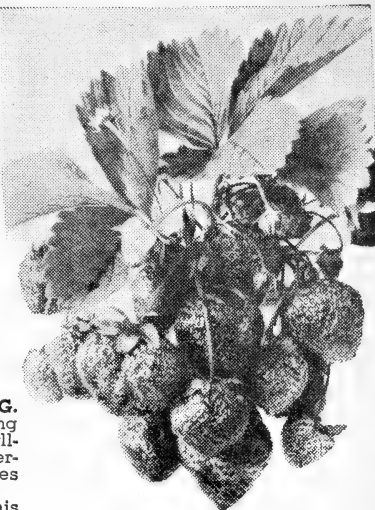

Grow berries for your own use or for market. Set out 16 to 18 inches apart in 3½-foot rows. It will require about 7,500 plants per acre.

THE NEW BLAKEMORE STRAWBERRY. This is a new berry that has been recommended highly by the Department of Agriculture. The Blakemore is firm, well colored, deliciously flavored—very productive and marketable fruit.

MASTODON EVERBEARING. This is the finest everbearing strawberry. New, large, fall-bearing berry. Mammoth berries. Eighteen of the larger ones fill a quart.

IMPROVED KLONDIKE. This variety is planted more in the Southwest than any one variety grown today. The Improved Klondike is bred up and is more productive than the old original Klondike.

MISSIONARY. Fruit is medium size and very firm, resembling the Aroma in shape and color. A good plant maker.

Wolfe's THOMAS BLACK WALNUT

WORLD'S HEAVIEST PRODUCING WALNUT

Thomas Black will produce heavy crops anywhere. As the pictures show, it is a perfect nut with the same old flavor of native walnuts. Remember, our trees are already bearing. Note the thin shell and kernels that come out in big halves.

Thomas Black Walnut

WILSON WONDER ENGLISH WALNUT. Called the "Jumbo Walnut" because of its enormous size. Nuts often 2 inches in diameter. Makes a beautiful, fast-growing shade tree that will furnish your table with good eating nuts.

Grande English Walnuts

GRANDE ENGLISH WALNUT. A new English Walnut for the Southwest that is a sensation. Our trees are loaded this year with the high quality nuts. The tree makes a beautiful shade for the home

WOLFE'S HEAVY BEARING PECAN TREES

Plant Your Pennies and Watch Your Dollars Grow

Plant Pecan trees on terraces, along your driveway, in your back yard or in an orchard. Plant 25 to 30 feet apart around your home or 50 to 60 feet apart in the orchard.

Wolfe's Giant Meyhan

WOLFE'S GIANT MEYHAN. The largest pecan grown. It looks like Western Schley, only much larger. Nuts must be thinned on the tree for best production. Meyhan is a true paper-shell pecan that brings more per pound than any pecan.

JOHN GARNER *Out Bears All Pecans*

JOHN GARNER PECAN. The very finest Pecan grown and will bear one-third more per tree than any other Pecan. Garner produces nuts the first or second year after you plant them because our "YOUNG BEARING" system makes them bear in the nursery rows. Everyone says it is the most beautiful Pecan grown. It is the only true paper-shell—so thin it can be cracked with the fingers. The creamy, delicious kernels are extremely rich in oil, proteins, carbohydrates, vitamins and distinctive flavor. Plant in uplands. Altitudes of 600 feet and up.

Pecans are an investment that will pay big dividends for the rest of your life. A small investment in a Pecan grove will make easy money for you and several generations to come. Pecans set in proper soil will immediately double the value of your land.

PECANS—WESTERN VARIETIES

Pecan—Burkett

BURKETT. The Burkett is and will continue to be the leader of western varieties. Its flavor cannot be equalled. It is a regular producer of large, fat Pecans that bring top market prices. As long as we have been in business, the market demand for Burkett Pecans has never been supplied. Plant Western Schley and John Garner with Burkett for perfect pollination.

Who will feed a starving world? Answer: The man who grows Pecans... the nut that contains four times as much food value per pound as meat.

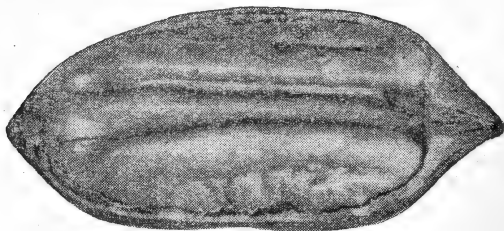

SAN SABA IMPROVED. This not only looks good, it tastes good. The kernels are very smooth, firm, light-colored and come out in perfect halves. Ripens early.

HALBERT. Early and prolific bearer. Good for black waxy or heavy soil.

SQUIRREL'S DELIGHT. An ideal Pecan for sections having a short growing season. Oklahoma, New Mexico and Kansas are ideal states for this hardy Pecan. This nut is long like Schley with a delicious flavor and fine quality.

COMMONWEALTH. This is the latest variety to put on leaves and bloom in the spring and still ripen early. **FROST-RESISTANT.** Commonwealth is long like Schley and is a heavy bearer.

ONLIWON. Similar to Success with thinner shell.

Western Schley

WESTERN SCHLEY. The perfect cracker. As the photograph shows, it is a long, well-shaped, beautiful nut. The shell is thin and soft. The tree is remarkably healthy, strong grower, early and heavy producer. Western Schley is a Genuine Risien Gold Medal Pecan and **REMEMBER**, they are already bearing when we sell them.

See Next Page for Prices on Pecan Trees

GENERAL DOUGLAS MacARTHUR. This new Pecan is the size of Success and like Douglas MacArthur, is the needed success of the day. We only have a few trees in 2-4 ft. tops. **Price, \$1.95, Prepaid.**

OFFER NO. 16

PECAN BUDS AND GRAFTS

PECANS WILL PAY THE TAXES ON YOUR HOME

STUART. Stuart is a good bearer and the nuts are long and attractive. The shell is rather thick but soft, and the meats are sweet and brittle.

EASTERN SCHLEY. This is the standard of excellence among Pecans. The tree is healthy and it has made an excellent production record in the native Pecan belts of Texas, Arkansas and Oklahoma in altitudes from 350 to 1,000 feet. Ripens early.

SUCCESS. This most popular Eastern variety is in demand. The nut is very large and oblong, with plump, smooth, creamy kernels that release perfectly from the thin soft shell. The tree is a vigorous grower and resistant to scab. It ripens after Stuart.

DELMAS. Delmas is a beauty and makes good our saying that "MONEY DOES GROW ON TREES." It is a heavy producing tree and the large nuts are first class eating. Adapted to central Texas. We grow only varieties that will pay you.

MOORE. Similar to San Saba Improved in size and color. Smooth, thin shell and free delicious kernels that are well adapted to commercial selling. Moore is an enormous producer. It made more money per tree than any other Pecan at the Louisiana Government Experiment Station.

WOLFE'S 2-YEAR-OLD FIELD GROWN ROSES

Over 50 Select
Varieties to
Choose From—

BRIARCLIFF. Brilliant pink; long-lasting buds which are very fragrant. Thornless.

CALEDONIA. White, large double blooms of fine form.

EDITH NELLIE PERKINS. Salmon-pink, enchanting blooms from May until frost.

K. A. VICTORIA. A free healthy grower. Splendid foliage. Pure waxy white, very double large flowers. Extra hardy.

RADIANCE-PINK. A vigorous bush that bears continuously large shining pink Roses even during unfavorably hot weather.

TALISMAN. A combination of orange-yellow and rose-red. The fragrant flowers are especially fine for cutting on account of their long, strong stems.

ETOILE DE HOLLANDE. Crimson-velvet, both fragrant and fine.

E. G. HILL. Immense flowers of dazzling scarlet—flowers on long stems. A popular Rose everywhere because of its fragrance and free-blooming qualities.

PRESIDENT HOOVER. A glorious Rose. A combination of cerise, orange and scarlet, giving a dazzling color effect.

RADIANCE-RED. Everyone's favorite red Rose. Large flowers on strong stems. A free-blooming, hardy, healthy Rose.

ROUGE MALLERIN. A French Rose of long, pointed, brilliant red buds. Very unique, firm textured, and delightfully fragrant.

EVERGREENS GROWN IN WOLFE'S NURSERY PROPAGATED BY EXPERTS

KEEP YOUR HOME DRESSED

BABY EVERGREENS. These baby evergreens are adapted to a large portion of the United States. They transplant safely and are easily shipped by mail or express. They will soon grow into valuable specimen in landscaping your home. Notice the low price and the small amount invested. You will enjoy watching them grow.

Pfitzer Juniper

PFITZER JUNIPER. One of the handsomest and most popular low-spreading Junipers with beautiful silvery-green foliage. Ideal for corner planting and border filling. **Price: 12-15 inch, 45c Each, Postpaid.**

ITALIAN CYPRESS. A tall columnar growing tree with soft, dark green foliage. Will attain 25 feet in height. Use with Pfitzer Junipers on corners and to build up tall lines. **Price: 18-24 inch, 49c Each, Postpaid.**

CANADA HEMLOCK. Very graceful in growth and habit. Fine needlepoint type, bright green-bronze foliage makes it a pleasing plant for single specimen or group planting. Add this to your order; it is something different to add to your landscape. **Price: 8-12 inch Plants, Nursery Grown, 60c Each, Postpaid.**

ARIZONA CYPRESS. This beautiful and stately pyramidal steel gray cypress needs no more description. **Price: 8-12 inch Plants, 35c Each, Postpaid.**

SPINEY GREEK JUNIPER. A very popular dwarf-growing Juniper forming a symmetrical cone of silver blue-green foliage. They make fine plants for grouping or use as single specimens. Extremely hardy and good growers. **Price: 8-12 inch Plants, 49c Each, Postpaid.**

IRISH JUNIPER. Irish Juniper is of upright growing habit, reaching a height of 6 to 10 feet at maturity. Its greyish-green color in summer and its grey colored coat in winter make it blend well into any landscape. Fast grower, hardy. **Price: 6-8 inch Plants, 29c Each, Postpaid.**

BAKER'S PYRAMIDAL ARBORVITAE. Compact and pyramidal, with dark green foliage. **Price: 12-18 inch, 45c Each, Postpaid.**

BONITA ARBORVITAE. A globe-shaped, dwarf-growing plant with dark green foliage, grows 4 feet high. Lends a graceful touch to an entrance. **Price: 8-10 inch, 45c Each, Postpaid.**

BERKMAN'S GOLDEN. A new dwarf, compact, almost globular arborvitae with yellow-greenish foliage tipped with gold in spring. Grows to height of 6 feet. A background for the different "color scheme." **Price: 10-12 inch, 45c Each, Postpaid.**

BLUE SPIRE A. V. Like Baker Arborvitae, except blue in color. **Price: 8-12 inch, 45c Each, Postpaid.**

CHINESE A. V. Will grow in any drained soil. Good for hedges. **Price: 6-10 inch, 20c Each; 10 Plants for \$1.00, Postpaid.**

COLORADO BLUE SPRUCE. Well known and admired everywhere. **Price: 6-10 inch Plants, 49c Each, Postpaid.**

RED CEDAR. For sheared specimens or windbreaks. **Price: 12-18 inch Plants, 15c Each, Postpaid.**

PINE (Short Leaf). **Price: 12-18 inch Trees, 29c Each, Postpaid.**

PINE (Scotch). **Price: 12-18 inch Trees, 39c Each, Postpaid.**

SHADE TREES

ELM, CHINESE. I have one of these lovely trees in my yard that is 35 feet high and has a spread of 40 feet. The trunk is 16 inches in diameter at the age of 13 years. **Price: 2-3 ft., 25c Each, Postpaid.**

SYCAMORE, AMERICAN. This is one of America's most popular and satisfactory shade trees. It is hardy and resistant to root-rot. Grows 50 to 60 feet high. **Price: 2-3 ft., 25c Each, Prepaid.**

MIMOSA (Silk Tree). Has an umbrella-like top, feathery foliage and beautiful, fragrant, pink blossoms in the summer. The leaves fold up at night like a sensitive vine. This is one of our most beautiful trees and is hardy. **Price: 2-3 ft., 35c Each, Prepaid.**

WEeping WILLOW. I have the true Babylonian with branches that hang straight down. Adds an airy touch to a low spot around your home. Plant where it will get plenty of water. **Price: 2-3 ft., 19c Each, Prepaid.**

TEXAS UMBRELLA. Tall, upright grower. It grows so fast you can almost see it. Large top resembles an umbrella in shape. Extremely hardy in any climate. **Price: 2-3 ft., 25c Each, Prepaid.**

ELM, AMERICAN. Tall, stately, beautiful branches spreading to lend grace to a shade. It often grows 60 feet tall. **Price: 2-3 feet, 25c Each, Prepaid.**

FLOWERING SHRUBS

Year-round Beauty

To Glorify the Color Scheme

Permanent Beauty in the Most Effective Sure-to-Grow Varieties.

Grow Yourself a Charming and Restful Garden of Beauty

ALTHEA. Rose of Sharon. Hardy, upright growing shrub, flowering in both double and single blossoms. White, purple or red. **Price: 2-3 ft., 25c Each, Postpaid.**

BARBERRY. New Redleaf. Low-growing plant with spreading branches. Leaves bright red in spring and turn to bronze red in fall. Scarlet berries in winter. **Price: 12-15 inch, 30c Each, Postpaid; 5 Plants for \$1.00, Postpaid.**

BRIDAL WREATH (Spirea V. H.) Graceful, upright grower with deeply cut, attractive foliage. The plant is a mass of white blooms in early spring. **Price: 2-3 ft., 15c Each, Postpaid; 10 Plants for \$1.00, Postpaid.**

PERSIAN LILAC. Purple. The old-fashioned Lilac, only a little more streamlined. Fragrance de luxe. **Price: 2-3 ft., 29c Each; 5 Plants for \$1.00, Postpaid.**

REDBUD. Small tree-like shrub which is covered with rosy-purplish flowers before the leaves put out in the spring. Every landscape should have one. **Price: 2-3 ft., 19c Each; 6 Plants for \$1.00, Postpaid.**

WEIGELA (Rosea). Upright, medium shrub with trumpet-shaped flowers varying from flesh-pink to rose. **Price: 2-3 ft., 25c Each; 5 Plants for \$1.00, Postpaid.**

CRAPE MYRTLE. Best flowering shrub for the Southwest. Stands drought. Blooms soft fluffy flowers in dense heads all summer long. Red, pink, orchid. **Price: 2-3 ft., 25c Each; 5 Plants for \$1.00, Postpaid.**

DAHLIA Bulbs

Every Dahlia we sell is outstanding. They will produce prize winning flowers. Jane Cowl has produced flowers over one foot across. In late fall these flowers come into their grandest beauty and one plant frequently produces over 100 flowers per season.

MRS. WOLFE'S CHOICE DAHLIAS

6 Beautiful Dahlias, one of each of Jane Cowl, bronze; Jersey Beacon, red; Jersey Beauty, pink; Mrs. Ida Warner, lavender; Jean Kerr, white; Pride of California, dark red.....

\$1.00
Post-paid

MRS. WOLFE'S DAHLIA OFFER NO. 24

GLADIOLA Bulbs

Gladiola should be planted beginning February 15 (4 inches deep) and they may be planted every two weeks thereafter until July. No flowers are more beautiful. Picardy flowers are over 4 inches across. You can buy small bulbs cheaper, but it pays to buy good blooming size bulbs.

GLADIOLA BULBS
